

# The New Paradigm

## Windows Ink and Microsoft Teams

Fletcher Mayo

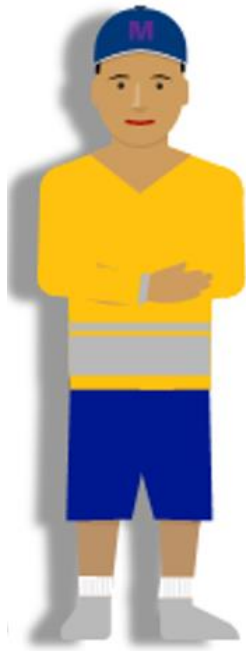

# How to Think with **Window Ink**

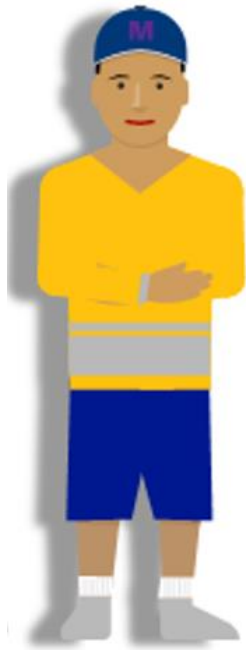

# Meet Jimmy

# Jimmy: Uses his Dad's old laptop

# Jimmy: His Teacher has given him a Modern Device

Jimmy: Inking has helped Jimmy so much he now has one at home

# Why Windows Ink?

Accommodates different styles of learning

Bringing out your inner creative

Retains handwriting skill

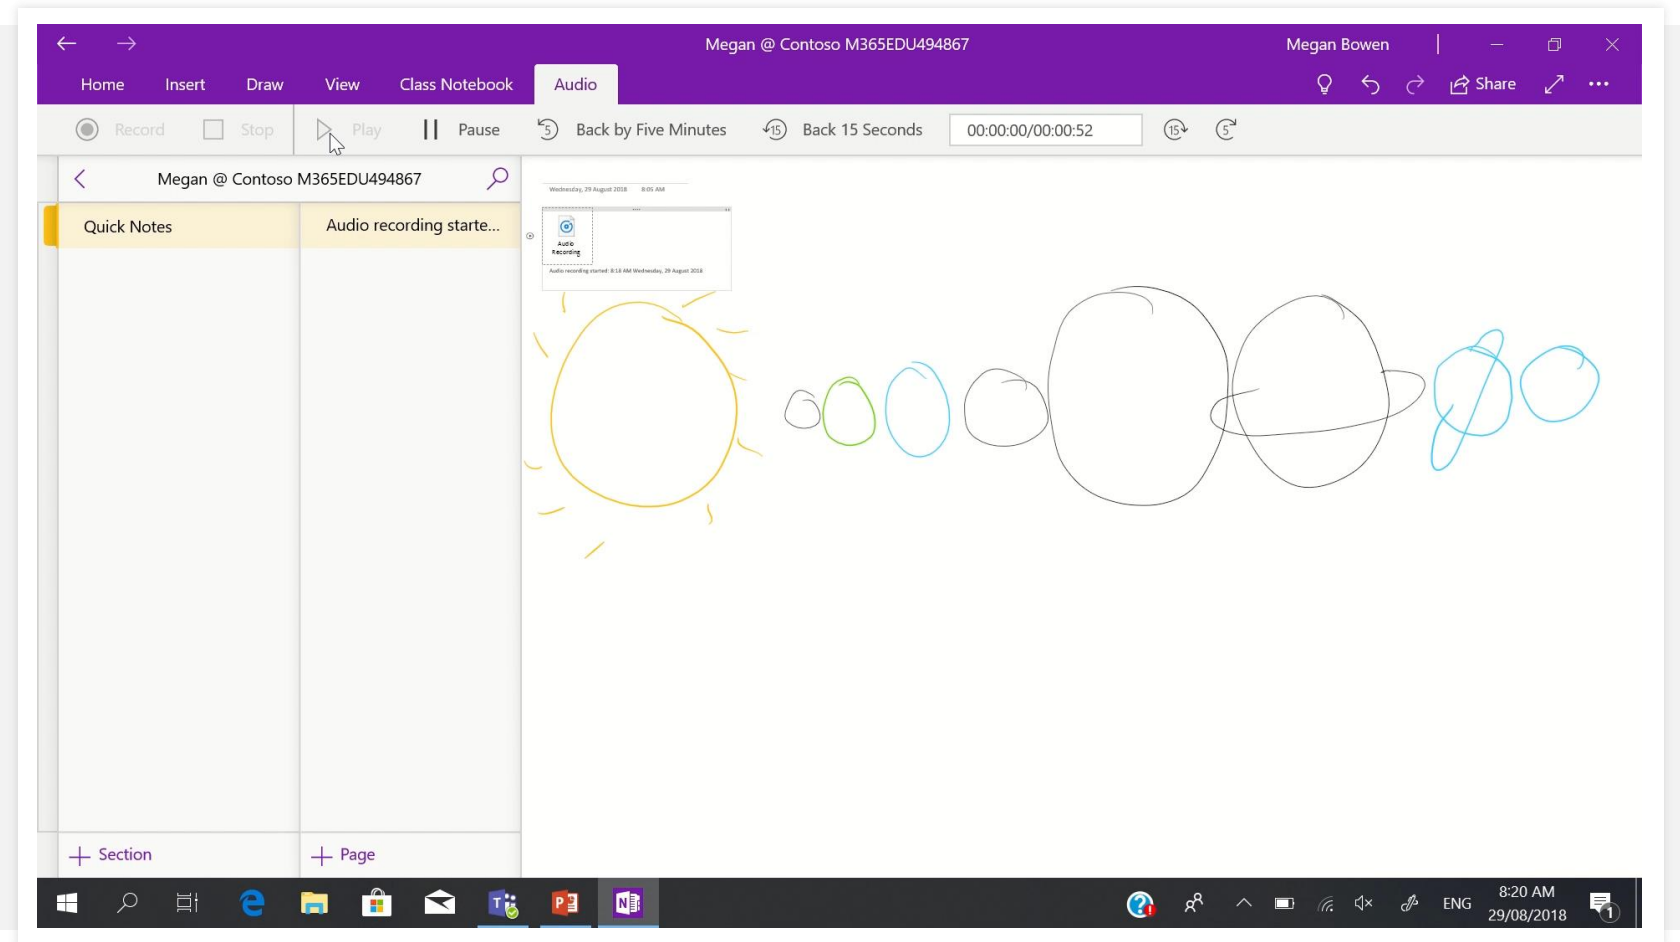

Metacognitive thinking

Natural interaction

# Record Audio

Record the audio around you while simultaneously writing notes which link to what is being recorded.

- Easily listen to recordings linked to your notes
- See what notes you have taken as the recording plays

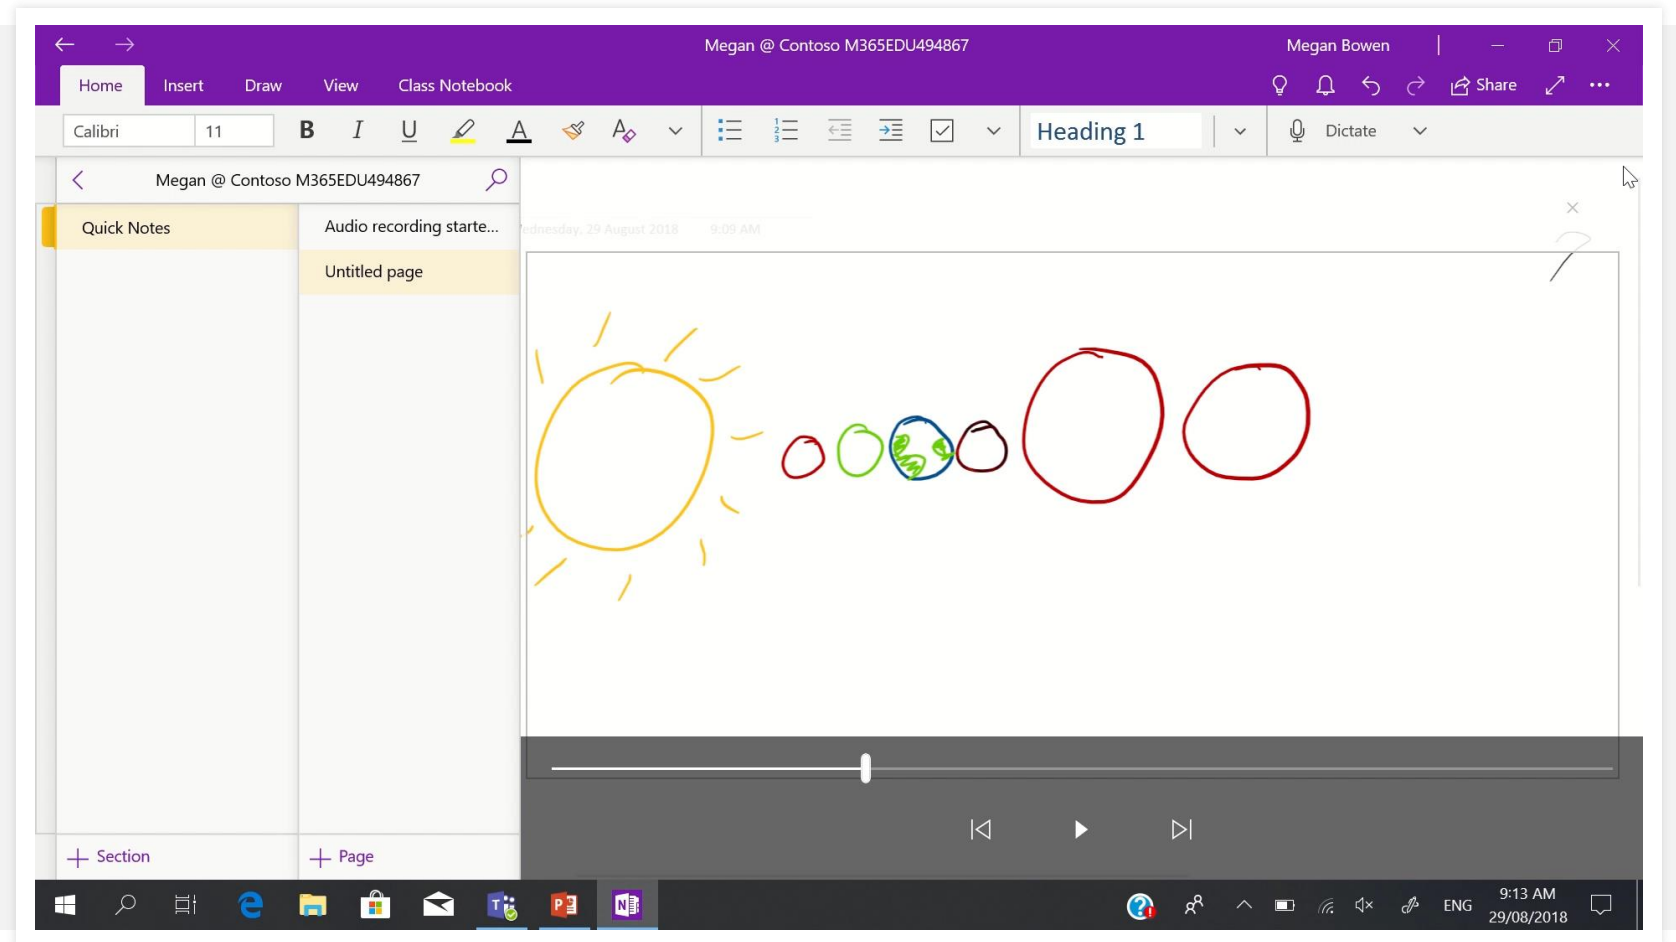

\*Please note this specific video clip has no audio attached

# Ink Replay

- Only Windows lets you go back in time to past activities you did across your devices, so you can jump back into them like you never left.
  - Go back and forth in time
  - Easily find past activities with search
  - Remove activities whenever you want

# Ink Editor

- Only Windows lets you go back in time to past activities you did across your devices, so you can jump back into them like you never left.
  - Go back and forth in time
  - Easily find past activities with search
  - Remove activities whenever you want

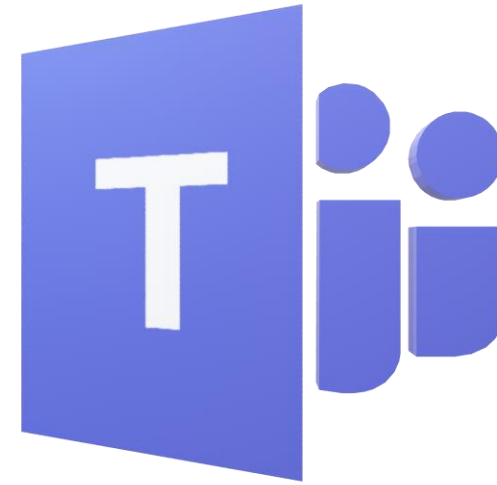

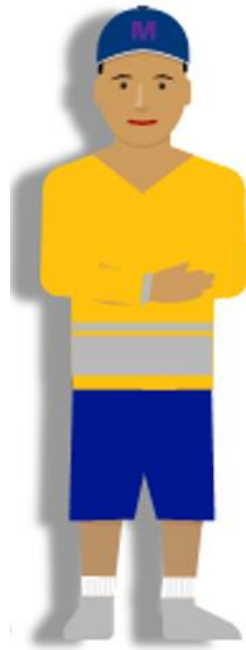

Live the **Teams** Dream

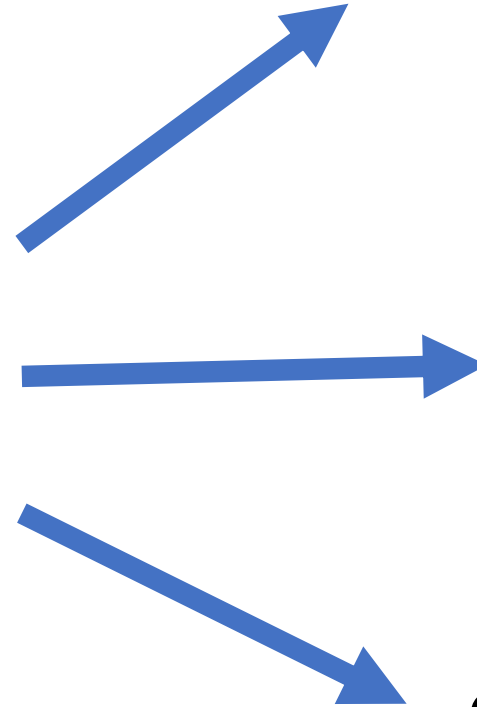

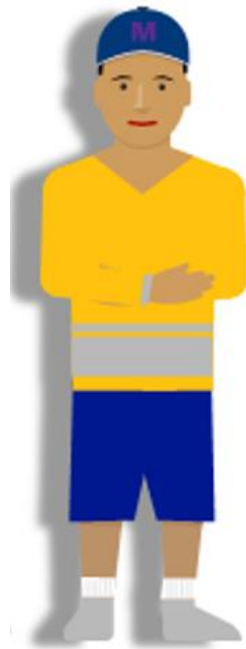

# Welcome back Jimmy
